### Plan to Improve Hospital Building.

Plans for the W. W. Massie Memorial Hospital, which will be located in the old G. G. White property in White addition, will be completed next week by Architect H. L. Rowe, of Lexington, who was selected by the trustees of the hospital to draft plans for the improvement of the building which is to be used as a hospital.

Extensive improvements are planned for the building, and when completed, it will be one of the most modern institutions of the kind in the state of Kentucky. The will of the late Mrs. W. W. Massie provided that her late residence at the corner of Vine street and Scott avenue, be turned over to the committee appointed by the city council, to be used as a hospital, but Mr. W. C. Massie, of this city, desiring to retain the residence, purchased the building and grounds, and the money derived from the purchase used to buy the White property.

It is planned to erect a three story addition to the present structure which will be used as separate ward for colored people and besides this many other improvements are under consideration. The large dining room, which during the life of Mr. White, one of the wealthiest men of the county, was handsomely finished and elaborate in its appointments will be divided into two rooms, and over the veranda which runs the full length of the building a sleeping room will be constructed. At present the building contains twenty-three rooms and the proposed improvements will add many more. A hydraulic elevator, of the latest and most improved pattern will be installed.

If the plans submitted by Architect Rowe are accepted by the trustees of the hospital, work upon the improvements will begin at once and pushed to an early completion.

### Franklin District Knocked Out.

The Kentucky Court of Appeals by a decision handed down Wednesday knocked out the legislative act creating a separate district of Franklin county, taking it from the old Fourteenth judicial district. The opinion was delivered by Chief Justice Hobson, Judges Winn and Lassing dissented from the ruling.

The question of the legality of the act was raised by Attorney James A. Scott, of Franklin county, and by Circuit Judge Robert L. Stout who had moved from Woodford county to Frankfort and claimed to be judge of the new district.

The court says the constitution laid down the rules under which judicial districts may be created, and they must be followed; that when the legislature acts under Section 138 of the Constitution it should not create a district of a single county unless it evidence that the population is sufficient to fill the constitutional requirement, but though it may have the evidence, still, if the fact does not exist the court will inquire into the facts and will not sustain the act if in violation of the Constitution.

The court says that while great weight will be given to legislative finding where the facts are doubtful, where the facts are clear the court must do its duty and maintain the supremacy of the Constitution.

### Notice to the Public.

It is well to anticipate the possibility of typhoid fever. Then, boil all water used for domestic purposes, and put yourself on the safe side. An ounce of prevention, etc. Presume your water supply to be bad until you know it to be good. This can only be brought out by analysis.

### Ed. Rice's Funeral Largely Attended.

The funeral of Mr. Edward Rice, which took place Wednesday afternoon at two o'clock, at the residence, near North Middletown, was attended by a large concourse of people from various parts of Bourbon county. Friends and relatives from Lexington, Winchester, Millersburg, and Carlisle were present.

About twenty-five Confederate veterans were in attendance, seated on the long veranda, and as the coffin bearing the remains of their beloved comrade was carried to the waiting hearse, they ranged themselves in double file along the walk.

Elders J. W. Ligon and L. H. Reynolds paid a high tribute to the Christian character of Mr. Rice, and voiced the sympathy of a host of friends for the family in their bereavement.

Among those from Prais who went to pay their last respects to their departed friend were Judge Denis Dandridge, Hon. C. M. Thomas, Squire L. J. Fretell, Mr. Pearce Paton, Judge E. B. January, wife and daughter, Jailer Joseph Farris, Attorney C. Arnsperger, Dr. C. J. Clark, Dr. Frank Fithian, Mr. Jas. McClure, Attorney John Williams, Mrs. W. R. Scott, Mr. Jas. McDonald, Col. E. P. Caly, Mr. Buckner Woodford, Mrs. C. C. Leer, Miss Carroll Leer, Messrs C. U. Bramblett, John Ross and Horace Taylor, of Carlisle.

The floral tributes were numerous and of unusual beauty and the remains were laid to rest in the little cemetery at North Middletown in the presence of the largest crowd that ever assembled there.

### The Beef Trust.

Is the beef trust bigger than the United States government? Made bold by its victory, after a nine years' delay in the courts, in the famous "trust busting suit" started against it by former President Roosevelt, this trust has boosted meat prices to the highest figure ever known in this country, not even excepting war times. The trust gives a "shortage in the live stock supply" as its reason of increasing prices.

That this excuse is only a subterfuge is shown by the late report of the government bureau of statistics, which shows that instead of a shortage in the live stock supply, there has been a steady increase.

The supply of cattle at the seven principal Western markets in April was greater than in any April in the last decade," this report says. "The number of cattle shipped to these markets last month was greater than for the same month a year ago by thirteen per cent., and greater than the same period for 1910 by forty per cent."

There was a proportionate increase in the supply of hogs and sheep, also, and that the weight of these animals was up to the standard of former years is indicated by the fact that the supply of dressed meat now on hand in the packers' warehouse is greatly in excess of the amount held there last year.

This report shows that the beef trust has made up its mind to force the consumer to pay the cost of the nine years' suit it has just won. All the big fees paid out to lawyers for keeping the trust magnates out of the penitentiary will be taken from the purses of the consumers. Nothing must interfere with the trust's dividends!

A sub-committee of the Judiciary Committee of the Democratic House of Representatives has just started an investigation of the beef trust, and its report will be an answer to the question as to whether the beef barons are more powerful than the United States government.

### Extortionate Trusts.

A thousand million dollars a year is the amount that the protected industries wring from the American people annually, over and above a fair profit on capital actually invested, according to a statement of Senator Gilbert M. Hitchcock, of Nebraska. And Senator Hitchcock is not given to making wild or extravagant statements.

"I believe it is within reason to say," said Senator Hitchcock, at the conclusion of a speech he made on the subject "that a careful examination of the profits from all classes of privileged wealth in this country would reveal that the protected industries exact from the people approximately a thousand millions a year, over and above a fair profit. The fact that those industries have a monopoly enable them to do this."

Senator Hitchcock's speech fairly bristled with figures, taken from the most reliable and authentic sources, to back up each of his facts.

The steel trust alone gets \$300,000,000 annually in excess of a fair profit.

This monopoly does an annual business of three thousand millions of dollars a year, and it is estimated that without the tariff, the steel trust would have to sell its products for ten per cent. less than it now sells them, and ten per cent. of three thousand million is three hundred thousand. Every man, woman and child of the 92,000,000 in this country then, pays an annual tribute of \$3.50 each to the trust, over and above what they would have to pay if the tariff were taken from steel.

What is the effect of this extortion? One effect has been to create a horde of mushroom millionaires. Another effect has been a gradual centralization of the nation's wealth into a few hands, with consequent intensifying of the struggle for existence among the masses. Still another effect is seen in the vast number of strikes. Within the last twenty-five years 36,756 strikes have been declared in this country, most of them for higher wages. These strikes have involved a total of 6,000,000 workers, who, with their families, were driven to hunger and suffering.

While a steel trust enjoys a complete monopoly, due to the tariff, it finds time to compete with other nations for steel trade outside of the United States. Last year the steel makers of this country sold \$230,000,000 worth of steel abroad, in direct competition with the steel makers of Europe, thus proving conclusively that a tariff on steel is not needed to "protect American workmen", since American workmen do not get any more than their fellows abroad. The tariff is simply a barrier put up to enable the steel trust to gouge millions out of the home consumer.

And in the meantime, the Democratic bill to lower the tariff on steel, having passed the House, lies in the Republican Senate, still unacted upon.

It is now well known that not more than one case of rheumatism requires any internal treatment whatever. All that is needed is a free application of Chamberlain's Liniment and massage the parts at each application. Try it and see how quickly it will relieve the pain and soreness. Sold by all dealers.

### Who Is the Best Patriot?

Is it not just that what belongs to the people should be shared by the people? Is a man with no capacity for fighting more useful to his country than a soldier? Is a citizen inferior to a slave? Is an alien, or one who owns some of his country's soil, the best patriot?—Tiberius Gachus.

## WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alternative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Marlboro's Hotel and Surgical Institute of Buffalo, N. Y.

Mrs. Lizzie M. HESSHEIMER, of Lincoln, Neb., 520 "C" St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured."

"I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial."

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

**Council Fixes City Tax Levy.**

By a unanimous vote of the city council last night the tax levy for the city of Paris for the year of 1912 was fixed at \$1.30 on each \$100 worth of property in the city to meet the expenses for the ensuing year, a reduction of 5 cents, from the levy for the year of 1911. The levy is divided as follows:

Library fund,.....	.05
School Fund,.....	.35
Sinking Fund,.....	.30
General Expenses,.....	.60
Total,.....	\$1.30

Chairman W. O. Hinton, Chairman of the Finance Committee, reported a sum of \$6,000 in the fund for general expenses left over from last year. The only increase made in the levy was for school purposes and to which 5 cents on each \$100 was added to make up a deficit which exists at the present time. Last year the public school received a sum of \$11,000 and the sum which will go into that fund this year will be about \$15,000. The deficit was caused by the installation of a filtering plant at the school and other expenses, which brought the amount to about \$1,100. The addition of the 5 cents added to the tax for school purposes is estimated to realize a sufficient fund to meet the demand made upon the treasury. Councilman Hinton reported that the Finance Committee had gone over the Assessors books and found that the total assessment of the city property amounted in the aggregate to a sum of \$3,624,906. The Finance Committee made a report upon the work assigned to it in regard to the electric light plant and Councilman Hinton stated that the committee after considering the proposition could not see the wisdom of such a move if a satisfactory arrangement could be made with the Paris Gas and Electric Co. to furnish light at a reasonable price, and the bids submitted by the company were rejected. The City Clerk was ordered to advertise for new bids.

Police Judge E. B. January filed his report for the month of May. The total amount of fines assessed \$170; amount replevied, \$10; fines collected, \$59.50; amount suspended, \$42.50; amount worked out, \$40.

Chas. Thomas was elected as City Electrician vice Howard Lancaster resigned. The only other applicant for the position was Swift McGohrich, who received the votes of Councilman Brooks and Hinton, while Thomas received votes of Councilmen Kenney, Speakes, Parrish and Walker, Councilman Baldwin being absent.

**Building Foot Bridge.**

Workmen began work Wednesday on the construction of the foot bridge in connection with the traffic bridge that spans Stoner creek at the foot of Main street, and the work will be pushed as rapidly as possible. The casing of the traffic bridge has been removed to give the men engaged ample room to run supporting beams out the sides, upon which the structure will be built. Recently the city of Paris purchased of William Steuban, colored, a strip of ground adjoining the bridge, which, when the building upon it is torn away, will be used as an approach to the foot passage. The entire expense of building the foot bridge is being borne by the property holders of East Paris, who subscribed liberally to a fund provided for that purpose. It is expected that the new bridge will be completed within the next thirty days.

**STOCK, CROP AND FARM NOTES.**

—Winchester buyers are rejecting seed that has been stripped green. Several crops in Clark county have been stripped at an average of fifty bushels to the acre.

—W. C. Bell has lost more than \$1,000 worth of stock by death within the past few months. A pair of valuable draft mares and a mule died from scours and more than \$400 worth of his hogs died from cholera, at his place on the Peacock pike.

—McCorrnich Bros., of Winchester, have perfected a patent on the grass seed stripper whereby hundreds of dollars will be saved by the gatherers in labor. By the new patent the seed is raked back and sacked with only one man to the stripper, doing away with the raker.

—Monday was a dull court day in Shelbyville, farmers begin busy but little stock was on the market. The prices ruled slightly higher than a month ago. Plus horses sold from \$35 to \$125; sows and pigs from \$12.50 to \$20; shoats from \$4.60 to \$5.25, and cows from \$28 to \$45.

—Gillespie & Crouch, of this county, have sold their purchase of 38,000 pounds of wool to Speyer & Son, of Lexington, and will make their shipments this week. Their purchases of this year exceed that of last year by 7,000 pounds. The wool cost them 20 and 25 cents per pound.

—Pooled tobacco of the 1909 holdings of the Burley Tobacco Society will be rushed to market in Cincinnati and Louisville from all parts of the Burley district, where it is now in storage, so as to be put on sale and disposed of, by July 1, according to the recent decision of the Burley Society.

—Reports indicate that there will be an unusually heavy acreage of tobacco this year throughout the burley district. The weather for the last week or ten days has been quite favorable for putting out the plants, and most of the growers have taken advantage of it to have their plants set. With a favorable season a bumper crop of the weed is expected.

—James B. Haggard owner of Elmdorf, has purchased 250 acres of land on the Mayfield pike, five miles from Lexington, from John McElroy, the latter retaining his handsome country residence and fifty acres surrounding it. The land lies close to Mr. Haggard's Elmdorf farm, which now aggregates nearly 10,000 acres, the largest body of bluegrass land owned by one person.

—The R. J. Reynolds Tobacco Company, of Winston-Salem, N. C., has bought the big loose-leaf tobacco warehouse in Lexington from the Farmer's Tobacco Warehouse Company, and will convert it into a redrying plant for the tobacco which the Reynolds company buys each season on this market. The price paid is said to have been about \$40,000. The purchasers will, during the summer, expend about \$20,000 in installing redrying machinery and otherwise preparing the building for the purpose for which it is intended.

—CARLISLE COURT.—The Advocate says: "As was expected the crowd in town Monday was an extremely small one as work on the farm needs every minute of the farmers' time. Blue grass stripping, corn

planting, plowing and setting tobacco. Farmers have grown weary of waiting for rain and nearly every patch of tobacco is being set by, made season. So far the tobacco set this way is doing nicely."

—While the blackberry crop of Nicholas county is not as large as in former years, there will be an abundance of berries if there is a good soaking rain in the next few days.

—Eighteen of the thirty-three entries have qualified as candidates for the two-year-old trotting stake at the Blue Grass Fair, in Lexington, in August. This stake is one of the richest offered by the Fair Association.

—Perhaps the largest yield of bluegrass seed reported this season, comes from Fayette county. One hundred and sixteen bushels of bluegrass seed was stripped from one acre of land by Perry Hazelwood, a farmer residing on the Boonesboro pike, near Athens. The crop has just been harvested off of Mr. Hazelwood's farm, which was formerly known as the John Rogers farm.

**Seek Pardon for Youtsey.**

Efforts to secure the release from the penitentiary, on parole, of Henry Youtsey have been renewed by his friends, who have presented additional petitions and papers in his case to the Prison Commission. The Commission already has on file in the office a large mass of documents relating to the Youtsey case, and Saturday even more papers were filed.

Youtsey is serving a life sentence for the murder of Gov. William Goebel and confessed his part in the plot after his conviction. Youtsey now is employed in the shipping department of the office of the prison contractors as a stenographer and typist.

**The Winchester Franchise Again**

The Winchester Ball Club threw up the sponge last Friday and surrendered its franchise to Nicholasville, says the Richmond Climax. A few Richmond fans went over to see the farewell game, and as one of them said, "Winchester died hard." The fans were there in numbers—fully seventy-five, while from the number of ladies present—eight by actual count—we concluded that it must have been "ladies day." Tom Baxter, who was there, could not understand how such a large city refused to support a team. Bey Juett was present and told us just where the game was lost, but he could not tell where the fans were. Baxter said that he believed they were so busy in the factories that they could not get off. Jimi Winn, Steve Vaughn and a host of familiar fans were in too lachrymose a condition to attend, the latter, however, later pointed out the foundations of their county jail, which was expected to hold at least 100 prisoners when their railroad terminals were all completed. Vaughn also pointed out the new city hall, in process of construction, to cost an untold amount, as the place where future delegations were to be entertained from visiting cities, when, as Baxter again suggested, "Winchester secures a franchise in the National League. John Garner, a fine fellow, after whom the tall park was named, was also absent; would that he could either speak or write a line. The big "Durham Bull" just erected, the fans would not surrender, but determined to keep, and have pastured on the beautiful grass growing along the streets.

**Vansant's Election Ratified.**

The new State Central and State Executive Committees of the Democratic party of Kentucky organized at Frankfort, Tuesday, and the election of Rufus H. Vansant, of Ashland, as Chairman, was ratified. Robert G. Phillips, of Elizabethtown, was re-elected Secretary.

A committee, comprising Chairman Vansant; W. B. White, of Mt. Sterling; J. W. Gayle, of Owenton, and W. P. McDonough, of Louisville, was appointed to determine the feasibility of opening and maintaining permanent headquarters for the Democratic party in this State. The committeemen are from the State Central Committee.

**Drinking Cup Law Now in Effect**

Since midnight Tuesday night it has been unlawful for any drinking cup for common use to be allowed in any public place, the law passed by the last legislature going into effect at that time, and in compliance with this act of the Legislature drinking cups have been removed from all public places in this city. The hotels, court house, public library, railroad and interurban depots, and many of the stores have abolished the drinking cup and all will have to go in compliance with the new state law. It is said that the law will be rigidly enforced by the health officials in this city. The act passed by the legislature, and which was approved by the Governor, March 13, 1912, is as follows:

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

The use of the common drinking cup on railroad trains, and in railroad stations, public hotels, boarding houses, restaurants or steam boats, in stores or other publicly frequented places in Kentucky, is hereby prohibited. No person or corporation in charge of the foreaid places, and no person or corporation shall permit on said railroad train, in railroad stations, public hotels, boarding houses, restaurants, steamboats, stores, or any publicly frequented place in Kentucky, the use of the drinking cup in common. There must be posted also in a conspicuous place, by the individual or corporation, by the drinking water contained in any of the places mentioned in the foregoing paragraph, a warning card-board, with the above printed thereon in large letters, so they can be easily read. Any person or corporation violating the provisions of this act shall, upon conviction, be fined in any sum not less than one dollar, and not more than ten dollars, and each day's violation of any of the provisions of this act shall be considered a separate offense, punishable by fine in the amount named above.

All laws inconsistent with this act are hereby repealed.

## Will Consider L. &amp; N. Boost.

The Interstate Commerce Commission will hold a hearing at Atlantic City June 27 on the proposed increase of rates by the Louisville & Nashville Railroad from the Appalachian field, Virginia, to points north of the Ohio river on coke and coal. The increase amounts to as much as 40 cents a ton on coke and 20 cent on coal.

The Louisville & Nashville contends it costs more to operate from the points East of Middleboro, Ky., than from Middleboro. The advance is calculated to bring an increased revenue of one half cent per ton per mile. An interesting question may arise over the fact that, while affecting other points there is no increase from Benham, Ky., from which place it is claimed that the Harvester Trust ships. The railroad answer is said to be that the Louisville & Nashville from Benham strikes in north of Middleboro.

Dr. Zimmer is a recent graduate of the University of Ohio, in Cincinnati, and Miss Mahan is an attractive young society woman of her home town.

## Seed Dealers May Loose Heavily.

Blue grass seed dealers of this community who at an advanced season purchased freely of the standing seed are in a position now to loose heavily upon their investments, and according to rumor the losses of those who have a large acreage of seed already stripped and still more to harvest will loose in the neighborhood of a quarter of a million dollars. During the early season hundreds of acres of standing seed were purchased at a price around \$1.00 per bushel and as the crop now being harvested is the largest in many years, the overproduction is calculated to cut the price down for less than half of that obtained for cured seed in August last year, which price ranged from \$1.00 to \$1.75 per bushel. Local dealers were paying yesterday 35 cents per bushel for good seed, which is ten cents less on the bushel than was being offered last week for seed delivered.

## Quincy Ward Gets Appointment.

J. Quincy Ward, of this city, was on Wednesday appointed by Governor McCreary as executive agent for the State Fish and Game Commission. The appointment of Mr. Ward is a popular one, from the fact that he has been a hard worker for a number of years to get the game and fish laws of the state in shape to be of benefit to the sportsmen and his efforts were rewarded by the Legislature enacting the measure at its last session.

The other members of the commission are J. G. Sachs, of Louisville; A. R. Patterson, of Pineville; J. E. Grider, Fredonis, and Robert Burman of Richmond, the last two named being Republican members of the Commission, which is soon to meet to perfect an organization.

The selection of Mr. Ward is quite a compliment to him and will no doubt prove quite satisfactory. No man in the state is better known among true sportsmen who desire to see the fish and game laws preserved. While the last Legislature did not enact any new laws for the protection of game it created the Fish and Game Commission as a means of enforcing the laws now on the statute books.

The salary paid the executive agent is fixed at \$2,500 per year and the general expenses of the Department of Fish and Game preservation are to be met by the licenses to be paid annually by bird hunters and from fines occurring from the conviction of law violators.

has amended its charter so as to be able to act as Executor or Administrator of Estates-as Guardian or Trustee and any other fiduciary capacity.

A great deal has been said in a jocular way about the razor-back hog and his sun-splitting abilities, but it is a very encouraging fact that he is rapidly becoming extinct. His happy hunting grounds consist now of only a small part of the total hog producing area. He has been succeeded by the more domesticated and more highly developed type of hog, which someone has properly dubbed "the mortgage raiser." Many farmers can easily attribute the possession of homes, wealth and all that goes therewith, to the domesticated hog. His place in the scheme of industrial progress has been won not by any unusual trait, but is largely due to the fact that his profitability is a result of instinctive economical habits. By nature he seems to fit into the whole scheme of farming as a utilizer, to the best possible advantage, of many of the farm products that would otherwise be a total loss.

We can draw a very valuable lesson from this all but artistic animal, whose only language is his squeal of disapproval and his sturdy grunt of satisfaction. He saves where others waste, and makes his living by rooting around—sometimes in places where wanted, sometimes not. If there is anything within reach that he likes he usually finds it and proceeds to make good use of the opportunity without any manifest concern or excitement. He seems to make it his business to look after small things, even the holes in the fence if the outside looks more inviting.

Profitable farming is becoming more and more a business proposition in which it is necessary to look after the small things and to use to the best advantage every opportunity to produce more economically. The best and most profitable farmers have adopted systems of farm accounting, or, in other words, they have become bookkeepers,—have kept such complete records as to enable them to determine which fields were profitable and which were not. To begin with, it is not absolutely necessary to follow up all little details, but it is a good plan to do so as completely as possible.

If we were to go into a manufacturing plant, one of the first things to impress us would be the system of doing things and the strict principles of economy that are followed. All products that can be used for other purposes are saved, properly stored, and used when the time comes. At the end of each month, and possibly each day, the manager knows the exact status of affairs—the amount of stock on hand, and the quantity of finished product ready for the market. Every part of a great machine is numbered and each must be accounted for.

If the same unsystematic methods were practiced in factories as are used on some farms, they would soon lose their identity with the world's progress, and become nothing but idle monuments to some man's failure. On careful consideration it is plain to see that with farming it is as important, if not more so, to keep accurate and strict records of all expenditures of time, money and labor.

The space allotted to this article will not permit a detailed explanation of all the possibilities of an accounting system on the farm and what it will accomplish, but carefully kept records will be an index finger to point the farmer to loop holes through which the profits are now slipping. He would know which are the profitable fields; which are the most profit producing crops; which cows were boarders, that he might at the end of the season sell such animals to pay their board bills; he would know whether he was utilizing his horse power to the best possible advantage. In this connection it might be said that one of our foremost universities has just found that on a 100-acre farm, equipped with six splendid head of work stock, the average daily labor per horse was only a little over three hours for the entire year—a very small average labor record, indicating a lack of efficiency.

Well kept accounts would enable us to determine the most satisfactory way of utilizing our dairy products. Experiment stations have found that the cream separator reduces the loss of butter fat per cow to one-eighth that of the deep setting; one-twenty-first of the shallow pan, and one-thirty-third of the water dilution methods of cream separation. This shows that with the ordinary farmer who is milking ten average cows, figuring butter at the market price, will save more than the price of a separator in a single season. It not only is economical from the standpoint of obtaining more of the butter fat from the milk and other methods of cream separation, but makes it possible to utilize the milk before it has undergone the action of detrimental bacteria, to which it is very susceptible. Every farmer knows that milk as it comes fresh from the separator is in the most wholesome condition for feeding young pigs and young calves.

We hear a great deal said nowadays about maintaining the fertility of the soil. We all know that if grain is sold direct on the market that we deplete the fertility of the land very rapidly. The next best system of farming is stock raising for meat production, and the best of all systems for maintaining the productivity of the land, and at the same time reap profits therefrom, is dairying—not selling the whole milk but selling butter only.

Only by following some system of farm accounting can we know these things and be able to weigh in the balance the returns from each field from each kind of stock and from every farm operation.

#### HELPING THE WOMEN

The cream separator is one of the few things which specifically alleviate the drudgery of the woman whose lot has been cast on the farm. No better argument can be advanced for the increased sale and extended use of these machines. The man who places a separator on a farm has done something for humanity. In the city, when a housewife has cooked the meals, washed the dishes, and otherwise cared for a little flat with running water, steam heat, and electric lights, her whole duty toward man is done. Whereas, in the country a woman's work is never finished. Give the average farmer's wife only the housework to do and she would think she was on a vacation. It is this inequality of labor which starts country girls cityward. It is a lamentable commentary on the lack of chivalry in men but, in every rural community in which the writer has visited, the average head of the house always has money to buy labor-saving machines for himself and sons. He is thoroughly up-to-date in that, but when the patient washer, the fireless cooker, the carpet sweeper, the water system, and the lighting plant are advocated by the junior partner, funds are always low. This condition is not so bad as it used to be—prosperity has opened the purse strings—but there are still opportunities for betterment. The cream separator is one of them. It fills a need felt by every woman from Leah down to the 1911 Ames coed, and even if it did not increase the farmer's dairy profit one iota, it is worth its weight in gold for the labor it saves the mothers, wives, and sisters on the farm.

#### ROTATION OF CROPS

Reply to a Michigan Correspondent

"I am growing sugar beets and my land seems to be decreasing in production. What rotation can I use?"

In some localities it has been found that beets do best following alfalfa, corn and small grains. A very good rotation is as follows: First, wheat; second year, beets; then clover for two years, last crop being plowed under; then potatoes, and the rotation repeated. If alfalfa can be grown in your locality it is a good plan to include this in the rotation.

In Montana the best rotation for beet raising is as follows: Wheat, clover, oats, sugar beets, barley and peas. In Utah the following rotation gives good satisfaction: First year, sugar beets; second year, peas and oats for forage; third year, sugar beets; fourth year, oats, seeded to alfalfa; fifth year, alfalfa.

**Why Take Treatment That Is Doing You Good, When a Few Days under the care of Dr. Dolle Will Show You How Easy It Is to Cure These Diseases When the Proper Treatment Is Administered.**

**Have you treated for months and years, and been disappointed until you can't tell what can't be cured? You no doubt, all this time, have been treated by inexperienced doctors who had neither sufficient knowledge nor experience to how to cure you.**

**There are the diseases of which I have cured scores, and saving the repartition for cure of which I am so proud.**

**Blood Diseases, Skin Diseases.** I will give you treatment that will in a few days cure all rash, spots and every sign and symptom. My treatment gets the poison out of the system instead of driving it in like ordinary treatments. I cure blood diseases and skin disease so they cannot come back.

**Varicose veins, causing aching or pain in groin or back, Nervousness, Weakness, Loss of Vitality, Lack of Ambition—**

**My one-treatment cure is what you should have and what you will have to have to be cured right. Only one visit is required. I do no cutting and no stitching, pain nor trouble. All signs disappear in a few days.**

**Nervous Troubles, Lost Vitality.**

**My combined treatment for these troubles so common among those who have become weak and wornout, who have caused it by folly, dissipation and excesses, is remarkably good. No one believes how quickly it benefits until they have taken it. I cure nervous weakness, nervousness, pain in back, lack of energy, ambition and strength—it's just the treatment I have found so effective in treating such diseases.**

**Kidney and Bladder Troubles** are scientifically cured by me. My methods immediately benefit you, and the majority of cases I cure come from physicians and specialists who failed.

#### Four States Tour Route Adopted

In executive session the officers and board of directors of the Indiana Automobile Manufacturers approved the route for the second annual Four States Tour, after it had been slightly modified and also approved the maps, rules and other matter going into the route book. The route for the tour covers 1,233.9 miles through Ohio, West Virginia and Kentucky.

The route was laid out by a Great Western Forty driven by Clarence Lamar, of the Great Western Automobile Co., Peru, Ind. The route was made by W. D. Edenburn, of the Remy Electric Co., assisted by Ray Leeman, of the new Henderson Motor Car Co. of Indianapolis. The same Great Western will act as confetti car on the trip with Lamar as driver, and Edenburn will ride in the car as official pilot.

The itinerary in revised form is as follows: July 9—Indianapolis, Kokomo, Peru (noon), Wabash, Huntington and Fort Wayne; July 10—Fort Wayne, Vandalia, Lima; July 11—Lima, Findlay, Tiffin, Mansfield, Mansfield (noon), Ashland, Barberville and Akron; July 13 and 14—Tourists rest in Akron; July 14—Akron to Canton; July 15—Canton, Massillon, Canal Dover, New Philadelphia, Cadiz (noon) and Wheeling, W. Va.; July 16—Wheeling, Cambridge, O., (noon), New Concord and Zanesville; July 17—Zanesville, Newark and Columbus; July 1—Columbus, Lancaster, Circleville and Chillicothe; July 19—Chillicothe, Waverly and Portsmouth; July 20—Portsmouth, Ironton, Coal Grove, Ashland, Ky., Catlettsburg, Ky.; Kenova and Huntington, W. Va.; July 21—Tourists rest in Huntington; July 22—Tourists take boat to Maysville, Ky., from Huntington at 3 a.m., Maysville (noon), Paris and Lexington; July 23—Lexington, Frankfort, Shelbyville and Louisville; July 24—Louisville, New Albany, Ind., Scottsburg, Seymour, Columbus (noon), Franklin and Indianapolis.

## DEMAND IS GREAT.

Thousands Use the New Tonic With Good Results.

Unusual Conditions Have Resulted From the Introduction of "Tona Vita." Energy Can Be Restored.

In a recent interview one of the physicians who are introducing the remarkable new tonic "Tona Vita" to the American public had this to say: "The manner of living in the larger cities of the United States is such that perfect health is almost impossible; the human machine will not run true and strong day after day with its vitality continually being sapped by the constant nervous strain. Irregular hours, hastily eaten food, the wear and tear and rush of city life, are largely responsible for the immense amount of dull, listless, half sick people of the present generation. Debility or a run down condition, as it is called, is everywhere. Half the people I see in street cars, restaurants, theatres, or on the street, are unmistakably in a debilitated condition, with their nerves in such a state, that they either wish to lie down and rest or rush after some excitement."

"Any one who has met a constant stream of nervous, debilitated people as I have since I began my present work, can tell a man or woman in this condition at a glance. I wish to emphatically state that the number of debilitated people in the larger American cities is appalling."

"Tona Vita," the medicine I am helping to introduce, is to combat this condition. I believe it to be the best preparation ever before sold to the public, in that it is immediately effective in cases of debility and other troubles that go hand in hand with this disease."

You cannot hope to enjoy life or meet with much success if you are tired all the time, have little ambition, and feel continually depressed in mind and body. Every half sick, worn out man or woman owes it to themselves and their family, to try "Tona Vita." If the tonic does not make life more worth living, and brings back the healthy, energetic spirit, that is now lacking the price is refunded. Chas. E. Butler & Co. have the agency for "Tona Vita" in Paris; also for Lee's Rhubarb Laxative, the purest and best family laxative on the market. Lee's Rhubarb Laxative will not injure the most delicate constitution. It is ideal for children.

### Could Shout For Joy.

"I want to thank you from the bottom of my heart," wrote C. B. Rader, of Lewisburg, W. Va., "for the wonderful double benefit I got from Electric Bitters, in curing me of both a severe case of stomach trouble and of rheumatism, from which I had been an almost helpless sufferer for ten years. It suited my case as though just made for me." For dyspepsia, indigestion, jaundice, and to rid the system of kidney poisons that cause rheumatism Electric Bitters have no equal. Try them. Every bottle is guaranteed to satisfy. Only 50 cents at Oberdorfer's.

### Difficulties of Reform.

"Reform," remarked Farmer Corn-tossel, "is something that has to be approached with great caution and perspicacity." "Yet you must admit that we need reform." "Yes. But so does that colt. Only every time I start to reform him he lame himself, breaks the spring wagon and gives the whole family nervous prostration."

### Drives Off a Terror.

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes that it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50 cents and \$1.00. Trial bottle free at Oberdorfer's.

Something new is an experiment. Must be proved to be as represented.

The statement of a manufacturer is not convincing proof of merit. But the endorsement of friends is. Now supposing you had a bad back, A lame, weak or aching one. Would you experiment on it? You will read of many so-called cures.

**Judge Stout Convenes Court.**

Following the decision of the Ken-  
tucky Court of Appeals knocking out  
the district of Franklin county, Judge  
Robert L. Stout convened court here  
yesterday afternoon with the equity  
appearance docket. The announcement  
made by Judge Stout Monday that he  
would again convene court when the  
Appellate Court acted upon the case  
before it will result in his hearing  
equity cases the remainder of the  
week and until Monday morning,  
when the petit and grand jurors, who  
were excused until that time, will be  
sworn.

Following the call of the equity  
docket and a few motions, Judge Stout  
adjourned court until this morning  
when the case of the East Tennessee  
Telephone Co., against the Paris Gas  
and Electric Co. will be entered upon.  
The case is an action to compel the  
Electric Company to remove its elec-  
tric wires from the poles of the plain-  
tiff company in this city, and it is  
probable the entire day will be taken  
in reading deposition and presenting  
arguments.

of Moses," and at 7:30 p.m., the  
subject of his discourse will be "A  
Great Saviour." Christian Endeavor  
at 7:00 p.m. Prayer meeting Wed-  
nesday evening at 7:30.

**Paris Loses by Big Score to  
Celtics.**

Paris was defeated yesterday by  
Lexington by a score of 12 to 1. The  
game was a comedy of errors from the  
very start and the old story of the  
inability of the locals to connect with  
the ball. Given in detail the story of  
the struggle would require a column.  
The locals were at the mercy of  
Camnitz from the start, and Harold,  
who essayed to pitch for Paris was  
driven from the mound somewhere  
about the seventh inning. Hits were  
numerous and errors in such rapid  
success, that in the absence of a rapid  
calculator, it is doubtful if it were in  
the power of the official scorer to keep  
them correct, and the same also ap-  
plies to the error column, in which  
Paris is credited with seven, while the  
Colts drew nearly half that number.

It is said the Paris management is  
making an effort to strengthen and  
that Ollie Chapman has been signed  
and will be here to-day. There is a  
sincere hope that this is true and that  
strengthening will be in progress in  
other departments before long, partic-  
ularly the pitching staff.

The excellent pitching of Hauser,  
coupled with the heavy hitting of his  
teammates, won for Paris against the  
Richmond aggregation, Tuesday after-  
noon, in the latter city. The Bourb-  
onites counted the victory by a score of  
9 to 5. Paris was leading by three  
runs when Richmond tied the score in  
the seventh, but in the eighth and  
ninth Paris got to Myers, a former  
Bourbonite, and scored four runs.  
After the seventh Hauser tightened  
up, and would not allow the Pioneers  
another score. The local boys secured  
a total of seventeen hits off of Myers,  
each member of the team rapping him at  
least once. Goodman excelled with  
the stick, getting four out of five trips  
to the plate, getting two two-base hits,  
a single and a three-bagger. Volz played  
his first game with the locals, and  
celebrated the occasion with one corking  
three-bagger and a single. Harrel also  
secured a two-bagger, while Locke  
cracked out a three-base drive and a  
single, and scored three runs.

In revenge for the defeat of Tuesday  
the Pioneers came back Wednesday  
and administered a severe drubbing to  
the Bourbonites, winning by a score of  
12 to 3. Errors were frequent on the  
part of the Paris men, and Blankenship  
was hit all over the lot. Two and  
three-base hits came in profusion, and  
in each instance with men on bases.  
The Pioneers scored all their runs in  
the fourth, fifth and sixth innings. In  
the first four innings Black, who pitched  
for Richmond, retired the side in  
order, the first twelve men facing him  
going down. Goodman led at the bat  
for the locals, getting three hits out  
of four times at bat.

**NOTES.**

Frank Eddington, formerly with  
Paris, has been sold by Lexington to  
the Pittsburg club, and is now en  
route to the Smoky City to report to  
Manager Clark.

Bill Fisher, former manager of the  
Richmond club, is now playing first  
base with Louisville. He was formerly  
with the Colonels, but was sent to  
Richmond to manage the club, but a  
string was placed to him, that he  
might be called to Louisville in case  
his services were needed.

Tilford Jones, of London, Ky., is  
managing the Richmond club. Jones for  
the past two seasons played in the  
Eastern League, and was a member of the  
Montreal club. He is knocking  
the cover off the ball, and more than  
once has broken up a game for the  
Pioneers. In the early part of the  
season he was prominently mentioned  
as manager of the Paris Club, but for  
some reason slipped away.

Charlie Burden, one of the best  
pitchers in the Blue Grass League, has  
rushed his release from the Nihilas-  
ville club, and has gone to Battle  
Creek, Mich., to join McKernan's  
club, which is now in the lead in the  
championship race in the Southern  
Michigan League. Burden is in rare  
form now, and will be a great aid to  
McKernan in his struggle for the pen-  
nant.

Jake Scheneberg, last season the  
star twirler of the Paris team, seems  
to be getting his bumps in the South  
Atlantic League, where he is pitching  
for Savannah. Tuesday he was beaten  
by Macon, who secured fifteen clean  
drives off of him during the game.  
Scheneberg was the goods last season  
with Paris, and, although he put in his  
appearance late in the season, he pitch-  
ed twelve games, winning every one of  
them.

**J. T. HINTON.**

—Mr. Foster P. Clary, aged 58 years,  
died at his home in Cynthiana, Wed-  
nesday morning about eight o'clock,  
after an illness of twelve weeks. He  
had been in failing health for a num-  
ber of years, and was recently taken  
to a Cincinnati hospital for treatment,  
but, receiving no benefit, returned to  
his home in Cynthiana.

Mr. Clary was well known throughout  
Central Kentucky. For a number of  
years he was agent for the Louis-  
ville & Nashville railroad at Carlisle,  
and had been agent of the railroad com-  
pany at Cynthiana since 1892. His  
wife, who survives, without children,  
was Miss Cora Robertson, of Cynthiana.

He was a member of the Cynthiana  
lodge of Elks, and also a member of the  
Knights of Pythias. Besides his wife,  
Mr. Clary is survived by one son, Howe  
Clary, by a previous marriage, one  
brother, Jos. M. Clary, of Cynthiana,  
and two sisters, Mrs. J. D. Burnau, of  
Paris, and Mrs. W. F. Berry, of  
Cynthiana.

The funeral will take place from his  
late residence in Cynthiana this after-  
noon at three o'clock. Services by  
Rev. Jos. D. Armistead, assisted by  
Rev. A. T. O'Rear. The burial will  
be in Battle Grove cemetery, under  
the auspices of the Elks and Knights  
of Pythias of Cynthiana.
